

**Henry, 17 år**

**Henry kommer från staden Chiayi i Taiwan. Han bor tillsammans med sin mamma Chun-Sui (hemmafru och socialarbetare), sin pappa Szu-Chen (företagsledare) samt brodern Ching Yu (18år).**

**Hanrys fritidsintressen är bl. a basket, simning, skidåkning, segling, musik (spelar gitarr och ett kinesiskt instrument) böcker, filmer och att umgås med familj och vänner. Hans favoritämnen i skolan är idrott. Lärarna beskriver honom som en entusiastisk kille och han uppträder alltid som en god förebild inför klassen.**

**Henry kommer till Sverige i augusti 2012 och stannar under ett läsår.**

**” Hello!**

**My name is Henry I am 16 years old, a senior high school student. I am willing to experience more about other cultures, so I want to be an exchange student.**

**There are 4 people in my family, my dad, my mom, my brother and I. My dad doesn't live with us because he has to work in China. So there are usually 3 people at home. My brother always angry to me due to I didn't work hard enough on my study. But I know he is right.**

**I am in good at some exercise like swim and race, and I am interesting to reading novel and watching movies, I often do some housework on weekend, such as cleaning floor and washing dishes. We have a league in my school, and I am enjoying to play guitar so I join the club of guitar in school. It is very difficult and tired to practice guitar but it also very fun. I also can play the clarinet and an erhu fiddle(Chinese instrument).**

**In Taiwan I have many good friends in the school; we like to make fun of each other. We sometime go shopping, go to movies or study together. During the coming year, I hope to share the culture of my hometown with you, and become to the good friend too, I believe it will be great. If you like Eastern culture or Taiwan culture, I would like to talk many things of my country with you. And I also want to know more about your country and please show me more about your country's activities, or community activities. I will be interested in it. My teacher told me that if you want to involve the living in the country, know the culture, doing the business in the future with the country, you have to learn the language. I think this is the reason why I want to learn the language of Sweden, and make the local friends, involve the local host family and join the community activities. Wish we will have a good time together.**

**Wish you all the best!**

**Henry”**
