

## **Tina, 15 år**

**Tina kommer från staden Taipei i Taiwan. Hon bor tillsammans med sin mamma Hsiu-Hui (företagsledare) och sin pappa Sheng-Hsing (företagsledare), när hon inte bor på skolinternat. Hon har inga syskon.**

**Tinas fritidsintressen är bl. a basket, simning, cykling, promenader, shopping, filmer, TV och umgås med familj och vänner. Hennes favoritämne i skolan är engelska. Lärarna beskriver henne som en entusiastisk och ambitiös tjej, som ofta är klassrepresentant på engelska.**

**Tina kommer till Sverige i augusti 2012 och stannar under ett läsår.**

**”Dear host family,**

**My name is Chih-Chun, you can call me Tina. My birthday is on March 4<sup>th</sup> 1997. My hobbies are chatting with friends, watching movies and listening to music. And I’m good at helping teacher and school works. I want to try new things when I am in Sweden, and make many friends in Sweden. My school is a boarding school. I live with lots of school friends in school dormitory. I get up at 6:40am. I always do sports for 20 minutes in the morning, because P.E is an important subject for us. After having breakfast, I go to class. I have lesson all day. The life in school is tired but it is also fun. On weekends, sometimes I go shopping or watch movies with my friends. We enjoy ourselves very much. Sometimes we go to library together. When I stay at home, I always watch TV with my family, and help my mother do some chores and so on.**

**There are four people in my family, mother, father and me. My father and mother are businessmen, they are busy. We used to spend time together in the weekend to have dinner together or watch TV together. On the weekend, I also do some house works, like sweep the floor, clean the desk and so on.**

**Maybe the culture in Taiwan is really different from Sweden culture. I really like Taiwan, there are many delicious foods and Taiwan’s traffic is so convenient. The people in my country are all kind, friendly and warm. I will try my best to deal with the culture shocks. At the same time, I would like to learn the culture in Sweden. We can learn the different culture in many ways. I think the most important way is to communicate to each other very often, experience it and share the feelings and ideas. Also smile, food, culture and art are good ways to share our points of view and cultures. Wish we will have a good time together.**

**Wish you all the best!!!**

**Tina”**
